## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed 25 April 2006 have been fully considered but they are not persuasive and the rejection of claims 8-16 under 35 USC §103 is maintained.

### *Claim Rejections - 35 USC § 103*

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 8-16 rejected under 35 U.S.C. 103(a) as being unpatentable over Saebo et al (US Pub. 2001/0025113) in view of Reaney (US Pat. 6,414,171).

Applicants' argue the combination of Saebo and Reaney does not suggest or teach the claimed invention in view of the broad generic teachings of suitable acids for use in the neutralization step of making CLA.

While Saebo is silent regarding using other neutralizing agents besides HCL, as stated by applicants on pages 2 - 3 of the response Reaney lists a grouping of applicable acids. It is clearly stated in col. 3, lines 38-47 that HCL and phosphoric acid are interchangeable as neutralizing agents with phosphoric acid being the preferred acid.

Based on this information in Reaney, it is unclear how applicants' can state that the use of phosphoric acid as a neutralizing agent was not suggested or taught.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
